

Montanhas

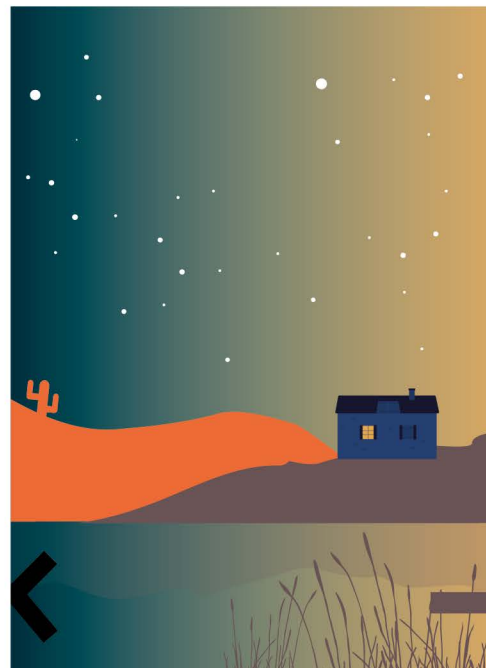

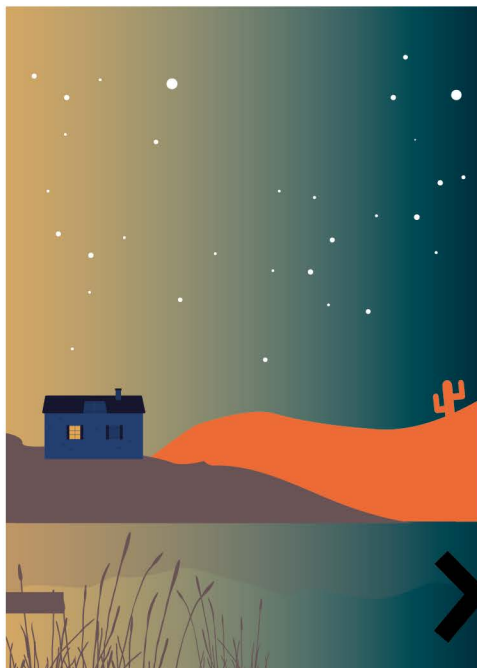

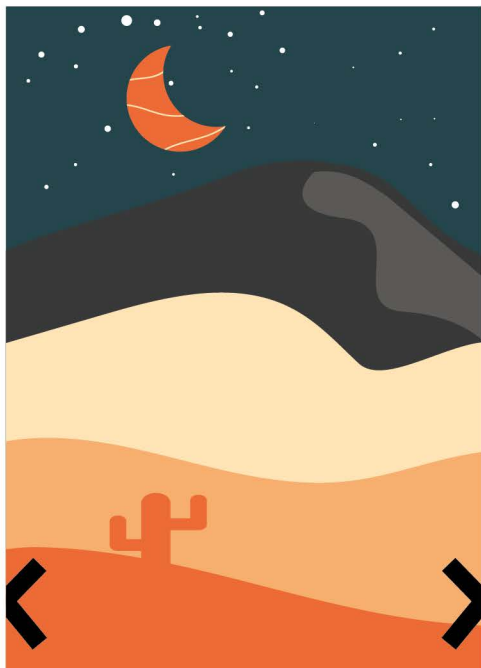

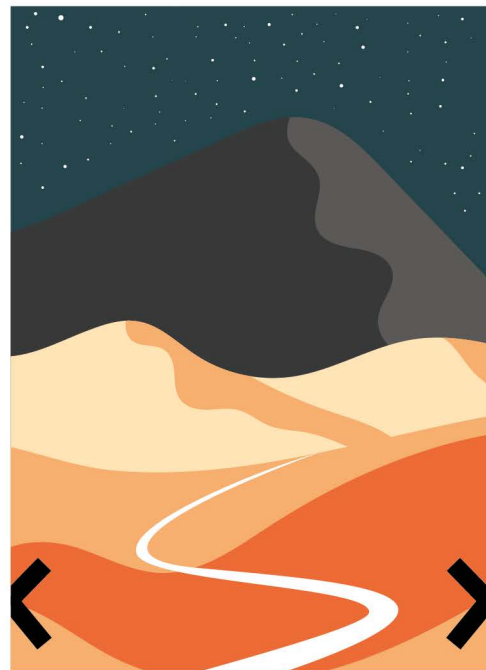

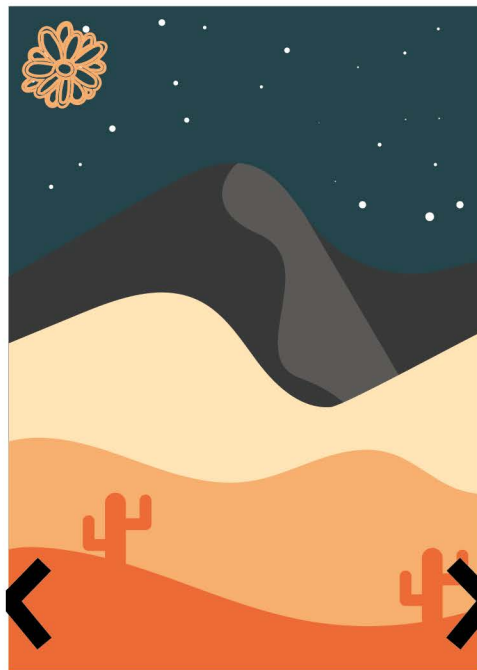

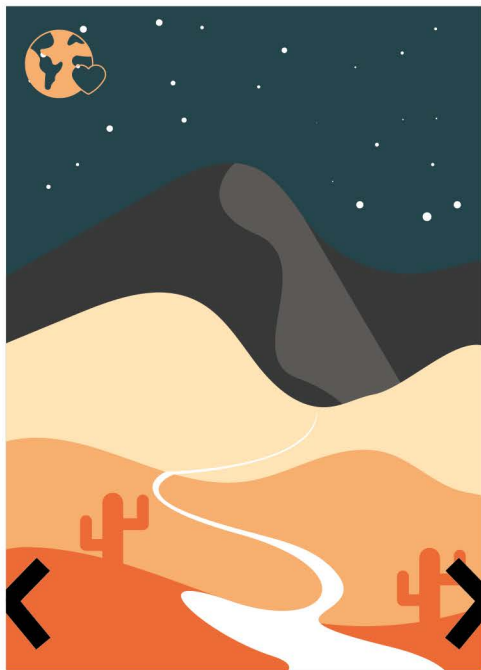

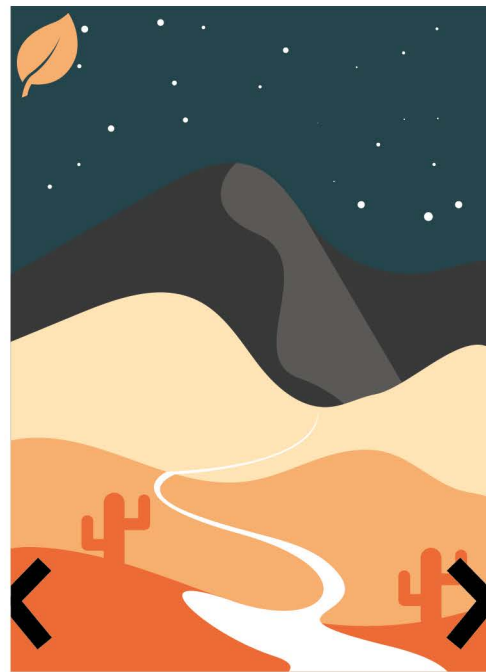

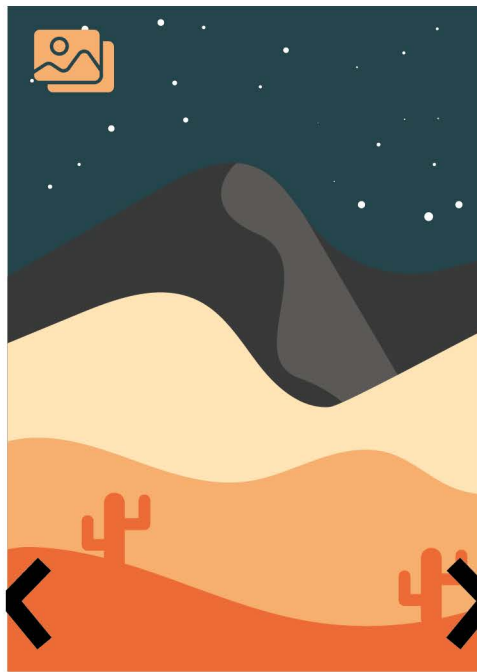

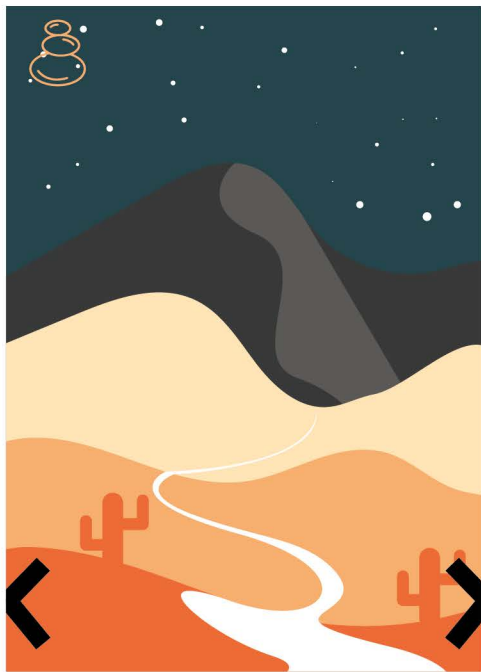

Olá, a continuação vou te dar algumas indicações para facilitar a impressão dos componentes do jogo.

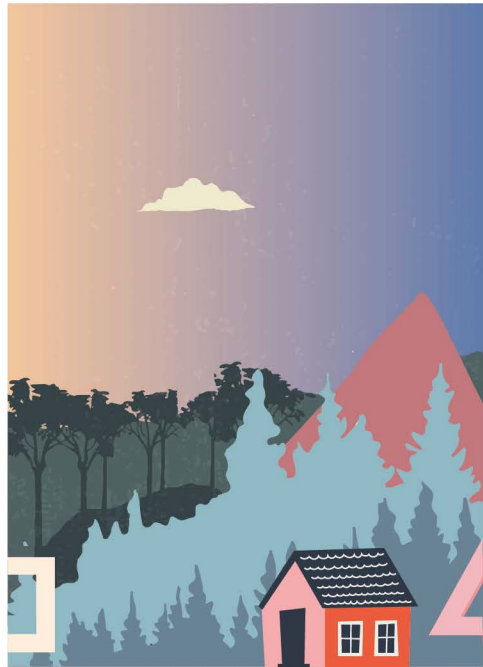

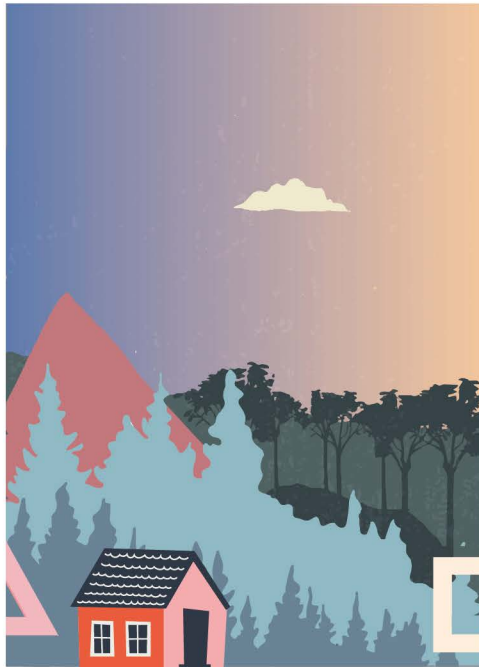

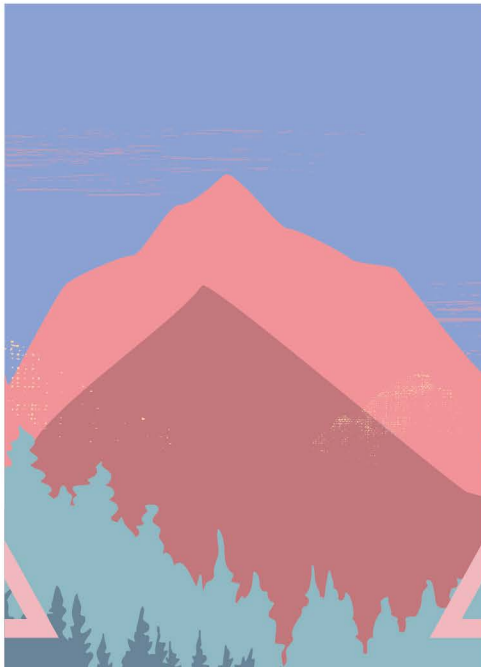

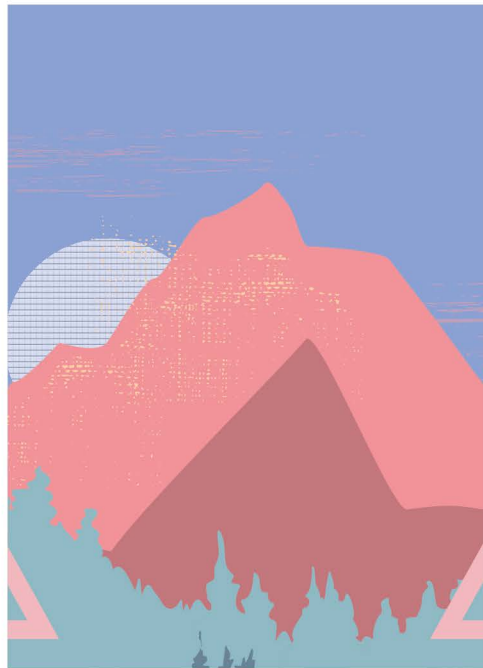

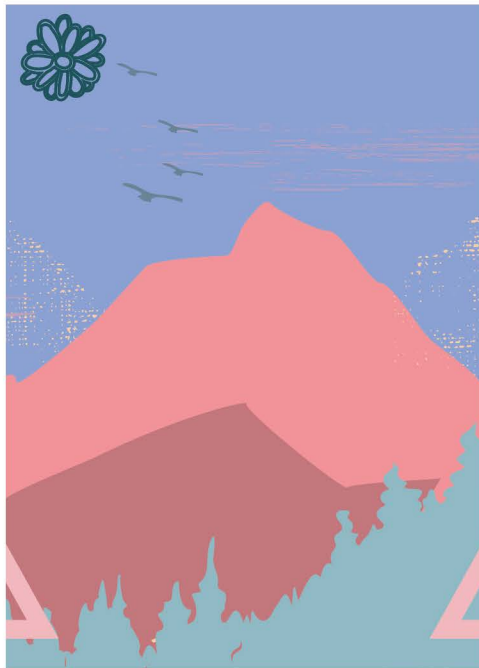

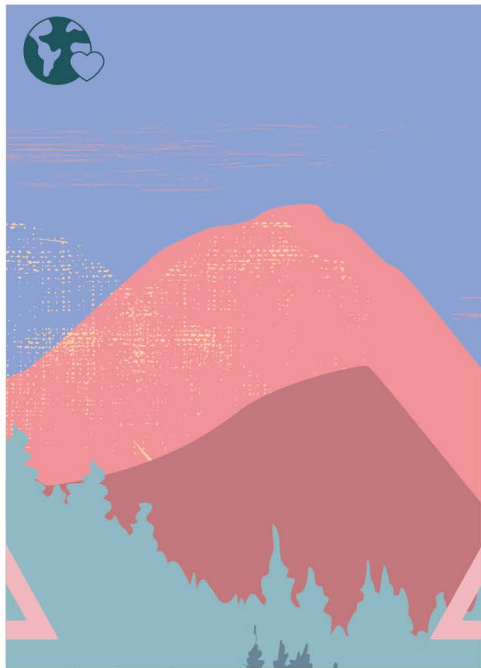

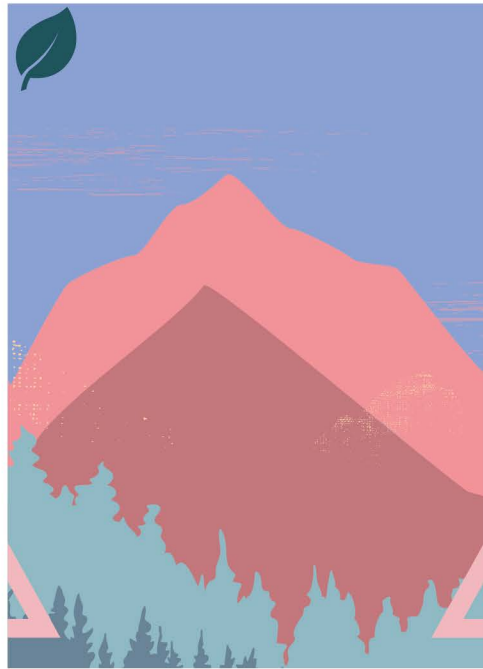

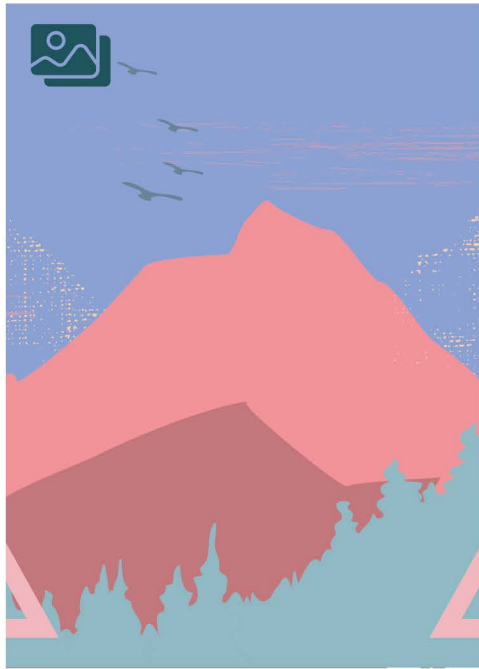

- Tem 55 cartas no total, 35 de montanhas e 20 de transições, que compoem a primeira parte do arquivo. Logo depois tem uma folha com a imagem que é o verso das cartas, se quiser imprimir e colar em cada uma das cartas do jogo, tem que imprimir 7 vezes essa folha.
- Tem 8 cartas de mochila, com e sem círculos, A ideia é colar uma mochila com círculos com uma sem círculos, para ter assim a frente e verso dessa carta.
- Tem 16 tokens de lanche (vermelhos) e 16 tokens de memorias (amarelo, verde, rosa e cinza). Tem que colar cada token vermelho com um dos outros, Assim você vai ter 16 tokens vermelhos pela frente e 4 tokens de cada memoria pelo verso.

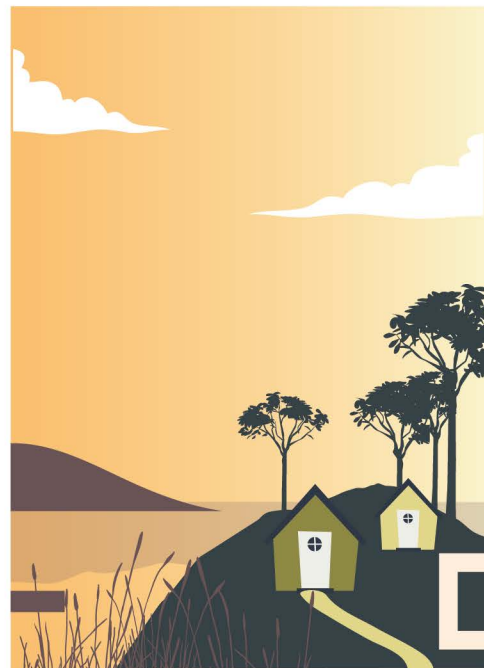

É isso, ja estás pronto para imprimir e jogar!
